

Fact Sheet

Pavement Improvements

Nevada Avenue and Bodger Street Area

CIP 038

Project Description

Neighborhood bound by I-10 Fwy, Tyler Ave, Garvey Ave, and Santa Anita Ave is proposed to replace and update water and sewer lines. The City proposes to improve the overall condition of the pavement in this area upon completion of the utility replacement work. Conduct pavement condition testing and prepare pavement rehabilitation design for: patch repair, grind and overlay, full depth reconstruction, new curb and gutter at various locations, new cross gutters at various locations, new driveway approach at various locations.
