

Fact Sheet

Zone 9 Phase 1 & 2 – Slurry Seal and Overlay Project CIP 071

Project Description

This project will slurry seal, cape seal, asphalt overlay and spot reconstruction as required within the mentioned project limits. Due to the size of the project area, Phase 1 & 2 will be designed concurrently, but construction will be in two phases.

Zone 9 Phase 1 project limits are bounded by Ramona Boulevard to the south, Cogswell Road to the east, Lower Azusa Road to the north, and San Gabriel River to the east. Phase 2 project limits are Ramona Boulevard to the south, Cogswell Road to the east, Lower Azusa Road to the north, and Peck Road to the west.
