San Gabriel Valley Council of Governments (SGVCOG) Can Help Increase Your Home's Energy Efficiency

Interested in increasing your home's energy efficiency? We can assist you! The SGVCOG has partnered with the County of Los Angeles, which administers the Southern California Regional Energy Network (SoCalREN), to bring together a wide variety of services with one common goal: achieving unprecedented levels of energy savings through efficient energy consumption. One way residents can participate is through our program, Efficient San Gabriel Valley (eSGV).

Get started by signing up for a free eSGV review! SGVCOG staff will walk you through the whole-house approach to energy efficiency, giving you the tools necessary to become more efficient. Find out more information at sgvco.org/esgv!

The Friendly City of El Monte

Efficient San Gabriel Valley

Free Home Energy Efficiency Assessments

Efficient San Gabriel Valley

What is eSGV?

eSGV is a program that provides San Gabriel Valley residents with FREE home energy efficiency assessments, helping them identify opportunities that may reduce household energy usage and costs.

What We'll Review

-  Building Materials
-  Heating and Cooling
-  Lighting
-  Kitchen Appliances
-  Laundry Appliances
-  Home & Office Electronics
-  Indoor Water Usage
-  Outdoor Water Usage
-  Rebates and Savings Assistance Programs

Participate in 3 Simple Steps

-  Sign up for your in person or virtual assessment at www.sgvcog.org/esgv or call (626) 457-1800
-  On the day of the assessment, staff will work with you to identify ways to improve your home's energy efficiency.
-  Within 7 days, staff will send you a personalized action plan with resources and rebate information, helping you get started on your energy efficiency projects!

The Whole House Approach

eSGV home energy efficiency assessments utilize the "whole house" approach. This means, we'll assess every aspect of your home that contributes to energy consumption and efficiency. From building materials and water usage to lighting and appliances, we'll provide guidance on how to make your home more energy efficient.

Save Money & Improve Comfort

Improved energy efficiency leads to energy savings. When you save energy, you save money spent toward your energy bill! In addition, energy efficient homes are better equipped to regulate indoor temperatures. In other words, they're able to remain at a comfortable temperature, even on especially hot or cold days.

eSGV is administered by the Southern California Regional Energy Network (SoCalREN) and implemented by the San Gabriel Valley Council of Governments (SGVCOG).

The SGVCOG is a joint powers authority made up of representatives from 31 cities, 2 Los Angeles County Supervisorial Districts, and the 3 Municipal Water Districts located in the San Gabriel Valley. The SGVCOG serves as a regional voice for its member agencies and works to improve the quality of life for the more than 2 million residents living in the San Gabriel Valley. The SGVCOG works on issues of importance to its member agencies, including transportation, homelessness, the environment, and water, and seeks to address these regionally.

The Southern California Regional Energy Network (SoCalREN) is administered by the County of Los Angeles and funded by California utility ratepayers under the auspices of the California Public Utilities Commission.
