

Garvey Avenue Street and Drainage Improvement Project

The City of El Monte will begin construction in March 2024 on the Garvey Avenue Drainage and Street Improvement Project.

Subsurface Infiltration System

www.garveyaveproject.com

Roadway Improvements

Project Objectives:

- Alleviate flooding at the Garvey Avenue grade separation
- Recharge groundwater with captured and treated stormwater runoff to improve water quality
- Street rehabilitation to include construction of landscaped median islands
- Improve ADA accessibility through sidewalk and ramp enhancements
- Repair of damaged sidewalks, driveways, and curb & gutter
- Increase mobility through new Class II bike lanes

Project Features:

- 1/2 mile of reconstructed paving
- 2,000 feet of new landscaped medians
- 4,600 feet of Class II bike lanes
- 7 ADA ramps
- 4,500 feet of sidewalk improvements
- 1.5-million-gallon subsurface infiltration chamber system
- Trash capturing pretreatment device
- 6 new catch basins
- 5 reconstructed catch basins
- 1,844 feet of new storm drains

Project Benefits:

- Increase mobility through bicycle and sidewalk improvements
- Reduce flooding up to the 50-year design storm event
- Recharge groundwater up to 24 acre-feet of runoff annually, reducing reliance on imported water
- Prevent trash, bacteria, and metals in stormwater runoff from reaching downstream waterbodies
- Beautify the streetscape through 10,000 square feet of landscaping

Project Budget and Funding:

\$13,901,202.61 - Total construction cost

Funding from the following sources

- \$4,000,000 - LA County Safe Clean Water Program
- \$4,015,800 - California Department of Water Resources Proposition 68
- \$2,250,000 - Caltrans Fair Share
- \$2,488,151 - LA County Metro Funds
- Other sources include SB1 funds and Storm Drain Impact Fee funds.
